The VMVB President was notified on Feb 13th when the files were added. There has been enough time from that date to today to get January inputted. If the files were updated as soon as changes or additions occurred the Incorporation would not need to send a reminder email on the 10th of every month.

This will not be completed today. I am on a 90 day leave and Ironfoot is on a cruise, he has possession of all VMVB finicials. The site was not completed in January therefore I was not able to input anything since 2015 was still open. When you update the Google site an email saying it is ready would have been helpful to prevent this type of delay.

Thank you.
